Timur Salakhetdinov

DATA SCIENTIST | DATA ANALYST

Hamburg, Germany | +49 1525 5400104 | timsalakhetdinov@gmail.com | linkedin.com/in/timursalakhetdinov | timursalakhetdinov.com

Data Scientist and Data Analyst with ten years of analytics experience across gaming, telecommunications, insurance and finance. At InnoGames, I migrated a manual Excel planning workflow to Microsoft Fabric with SARIMAX forecasting and run funnel and A/B-test analyses. My M.Sc. thesis at Leuphana forecasts revenue with foundation models (TabPFN) and agent-compiled text covariates. Available for full-time roles in Germany from April 2027.

WORK EXPERIENCE

Working Student, Analytics InnoGames, Gaming, Hamburg, Germany, hybrid November 2025 – present

- Migrated a manual Excel planning workflow to Microsoft Fabric, with automated time-series forecasting (SARIMAX) and Power BI plan-vs-actual reporting.
- Built a Power BI dashboard for an onboarding-flow A/B test covering funnel performance, hazard rates, and D1/D7 retention, and conducted churn analysis in StarRocks.
- Developed a TabPFN net revenue forecasting pipeline; evaluated LLM-extracted fields, raw-text features, and embeddings against calendar-only forecasts and shuffled-text controls.
- Built a multi-agent toolkit with a custom MCP server to automate Power BI report publishing in Fabric.
- Develop and maintain Power BI dashboards for engagement and monetisation KPIs used by game teams.

Data Analyst Absolute Insurance, Insurance, Moscow, Russia, remote January 2024 – October 2025

- Rebuilt Excel-based financial reporting as automated Power BI dashboards, reducing manual preparation for underwriting teams.
- Wrote complex SQL queries in MS SQL Server to aggregate operational and claims data for segmentation and pricing analyses.
- Applied clustering models to customer data to support underwriting decisions and identify high-risk policy segments.

Financial Analyst Arkada Company, Investment, Moscow, Russia, hybrid May 2019 – December 2023

- Prepared telecommunications market research, financial analyses, and acquisition-target valuations; supported the acquisition of 30 high-net-worth investors through competitor analysis and marketing strategy development.

Market Research Analyst MTS PJSC, Telecommunications, Moscow, Russia, on-site August 2011 – April 2019

- Prepared market, competitor, and trend analyses for India, Serbia, Slovenia, and Moldova to identify potential M&A targets.

TECHNICAL SKILLS

Languages: Python (NumPy, Pandas, scikit-learn), SQL (MS SQL Server, Hive, StarRocks).
Methods: Time-series forecasting, A/B testing, cohort and churn analysis, customer segmentation.
LLM & Agents: LangGraph, MCP, tool calling, RAG, coding agents.
ML & Forecasting: TabPFN, Chronos, TimesFM, LightGBM, PyMC, PyTorch.
Tools & Platforms: Microsoft Fabric / Power BI, Apache Superset, Docker, Git.

EDUCATION

Leuphana University Lüneburg, Germany M.Sc. in Management and Data Science Oct 2024 – Mar 2027 (exp.)

- Deutschlandstipendium recipient. GPA 1.9.
- M.Sc. thesis: “Forecasting Free-to-Play Game Revenue with Foundation Models and Agent-Compiled Text Covariates”.

RUDN University, Moscow, Russia Engineer-Economist, Economics and Management

- Six-year full-time degree, with Distinction.
- KMK statement of comparability (2023): equivalent to a German master’s level degree.

CERTIFICATIONS & ACTIVITIES

Meta Global AI Developer Hackathon Multi-agent game onboarding and A/B optimization (Muse, SAM 3.1) 2026
ChefTreff AI Hackathon, Hamburg Multi-agent assistant for founders in Germany 2026
ChefTreff AI Hackathon, Hamburg Computer vision pipeline for product defect detection (PyTorch, CNN) 2025
Yandex Practicum Data Science and Data Analysis Bootcamps 2022 – 2023
CFA Institute CFA Level I (passed) 2021
